Fair Haven Burnaby Lodge - Facility Update #4

Once again, I can report NO ADDITIONAL CASES at Fair Haven; we remain a facility on outbreak with only one confirmed positive case: a staff member.

Our staff have continued to cope amazingly well with the changes and have been creative in finding solutions to complex problems on the fly. People are working outside their regular duties to pitch in wherever they can, and they are doing it with passion, kindness and positivity.

We have daily reports with Fraser Health to review all of the actions underway, and the Fraser Health staff continue to comment on how well we are doing with ensuring safe and appropriate practice. In terms of updates, we wanted to inform you of the following things:

1. Fraser Health has asked us to board Lilo, the cat, elsewhere for the outbreak duration. Patti Keen, our dietician, has graciously offered to host Lilo in her home for the pandemic duration.
2. We welcomed some additional staff from Fraser Health today; we are grateful to have extra hands to assist with many activities.
3. We have added additional housekeeping, food service workers and will book extra staff throughout the outbreak whenever possible.
4. We have additional screeners to assist with screening staff regularly.

That's it for now. Stay well. Stay safe.

Joy Parsons,
CEO, Fair Haven Home Society

Betty Wong
Board President
