Fair Haven Burnaby Lodge - Facility Update #7

Our course remains unchanged; we have no new confirmed cases of Covid for any staff or residents.

We continue to get support from Fraser Health with additional staff and training. We are completing daily audits of our enhanced cleaning, hand hygiene practices and use of Personal Protective Equipment; all of our audits are receiving top grades so a kudos to all of the employees.

Despite the outbreak restrictions, the residents and staff celebrated Halloween this past weekend with some silly costumes and fun.

As I watch the news and see the concerns about the expanding Covid spread in the community, I'm even more very thankful that we are maintaining our position with no new cases.

Please continue to stay safe in the community and promote social distancing with your friends and family.

Stay well. Stay safe.

Joy Parsons,
CEO, Fair Haven Home Society

Betty Wong
Board President
