Fair Haven Burnaby Lodge - Facility Update #8

The Outbreak is Over

The Public Health Officer declared the Fair Haven Outbreak over at noon today.

This is excellent news, and I'm so pleased for all of our residents, staff and families; life can begin to get back to the pre-outbreak status of "new normal."

The public health team provides very prescriptive directions on what activities we can resume and those we must limit. At this time, we can resume Family Visits in designated areas. Please reach out to the recreation team using the website to plan a visit.

www.fairhaven.bc.ca

Residents can have meals again in the dining room. However, the dining room looks slightly different as residents will be spaced apart as required by the Public Health Guidelines.

I want to acknowledge how difficult these past few weeks have been for everyone; residents, families, staff and the leadership team. I'm very proud of Fair Haven's response and grateful that the outbreak is over so quickly.

Please continue to stay safe in the community and promote social distancing with your friends and family.

Stay well. Stay safe.

Joy Parsons,
CEO, Fair Haven Home Society

Betty Wong
Board President
